

## London 1 Data Center

# Home to the cloud: e-marketplace for growth and innovation

The London 1 Data Center will offer highly available, scalable data center space with high power density, carrier neutrality, flexible colocation spaces, cloud network access, connectivity and on-site support as well as on-site service personnel.

The first phase of London 1 Data Center is currently planned to open in Q2 2020. Customers can choose from flexible colocation deployments of single rack colocation and suites through to turnkey build to suit or shell & core solutions.

## A solution for every requirement

e-shelter offers you complete solutions for housing your IT and network systems in a secure, high availability environment. Whether for a short-term project, for the implementation of a private or hybrid cloud or for a project, which you only want to implement in the next couple of years, we can provide you with the best possible environment. As the requirements on IT are changing constantly due to technical development and the new possibilities of cloud computing, our space and performance parameters of our technical infrastructure offer you the highest possible flexibility.

## High availability in secure space

Your requirements are the most important aspect of our service offering. We offer space that ranges from commercial property to completely configured, high availability data center space as well as all the services for planning, design, operation and security. You choose, we deliver. Whether you select a building shell which you configure yourself, or we construct it according to your specifications, or you decide on a fully configured suite with pre-installed racks: we will ensure the space is available to you on schedule and at consistently high standard of quality for which e-shelter is known.

## Overview of e-shelter's main product offerings:

Fully fitted:	e-power-rack e-carrier-rack	Separate space, server and network cabinet including infrastructure
	e-cage™	Separate lockable space from 20 sqm
	e-suite	Separate locked room with a size from 300 sqm
Shell & core:	e-area™	Provision of constructed shell & core space from 1,000 sqm
Land:	e-site	Provision of land with upstream grid connection and planning

# Infrastructure:

## High availability and security

### Data center space

- 25,600 sqm of IT space
- Flexible colocation deployments: single rack colocation, suites, turnkey build to suit and shell & core solutions

### Power

- Gross power connection of 80 MVA
- Average power density of 2.5 kW/sqm
- n+1 UPS redundancy
- n+1 generator backup

### Connectivity

- Carrier-neutral
- Multi cloud interconnect gateway
- e-connect pre-cabling and ports
- Cross-, Internet- and DC connects
- Private- and Cloud connects

### NTT network

- As a member of NTT Communications Group of companies, e-shelter provides access to a global network of more than 140 data centers
- Connectivity options to the global NTT fibre network carrier-routes

### Security

- e-shelter is industry-leading in terms of security and compliance
- 24/7 security and service control centers (Security Operations Center (SOC) and Service Control Center (SCC))

### Services

- Installation services
- Facility management and tenant fit out
- 24/7 Remote-hands

# About e-shelter

e-shelter was founded in 2000 and quickly established itself as a leading provider of data centers in Germany. Over the past years, e-shelter has grown into an international organization, employing more than 400 people with diverse backgrounds and specializations that continually contribute to the company's success.

e-shelter operates twelve data center locations within Germany, Austria, Switzerland and the Netherlands and are currently expanding to Madrid and London.

As a subsidiary of NTT Communications, e-shelter is part of a global network of data centers covering 20+ countries and over 400,000 sqm of data center space. Among e-shelter's clients are financial services companies, telecom operators, public sector, IT service, as well as outsourcing and cloud service providers.
