Start of construction work for second building at e-shelter's Datacenter Frankfurt 3

Frankfurt am Main, February, 27th, 2014 – Since January the second building of a total of four to be built at e-shelter's datacenter Frankfurt 3 in Rüsselsheim is now under construction.

The new building, Building B, will be erected adjacent to the existing Building A allowing the use of the existing technical infrastructure of Building A. The new data hall, to be completed in the first quarter of 2015, will provide approximately 4,400 sqm of space. In addition, the new building will also be directly linked to the Campus Frankfurt Datacenter Campus of e-shelter via a fiber glass connection enabling customers to mirror their data in a dual-site approach.

The first part of the data center building of Frankfurt 3 in Rüsselsheim was already opened in November 2012. The buildings are located on the almost 40,000 sqm sized Campus which offers a power capacity of 90 MVA. The approximately 4,400 sqm of data center space were completely let within one year.

"We are very content with the occupancy of our data center Frankfurt 3", states Rupprecht Rittweger, CEO and founder of e-shelter, about the expansion. "The location Rüsselsheim offers great flexibility and an excellent framework for our growth".

About e-shelter

e-shelter designs, builds and operates high-availability data centers, whose infrastructure guarantees the highest standards of physical security and operational reliability. e-shelter was established in 2000. The company has 300+ employees and operates approximately 90,000 sqm of data center space, 65,000 sqm space alone are located at e-shelter's main site in Frankfurt, Germany, making it Europe's largest single data center site. Additional sites are located in Berlin, Frankfurt, Hamburg, Munich and Zurich, Switzerland. Among e-shelter's clients are financial services companies, telecoms operators and IT service providers as well as cloud service providers.
